Vienna, September 9–13, 2018

## The 12th European Fluid Mechanics Conference

Vienna, September 2017

Dear Sir or Madam:

The European Fluid Mechanics Conference is the premier conference in the field of fluid mechanics in Europe. It is organized biennially under the auspices of the European Mechanics Society EUROMECH and covers all aspects of fluid mechanics, from biological flows to aerodynamics and from environmental flows to combustion. The upcoming 12th conference EFMC12 is held during September 9-13, 2018 at TU Wien in Vienna. More than 700 scientists and engineers from Europe and beyond are expected to discuss and share the latest developments in the field. Details about the conference are available under

<https://www.efmc12.conf.tuwien.ac.at>.

EFMC12 provides excellent promotional opportunities. The Organizing Committee has prepared a comprehensive promotional program, with sponsor and exhibitor packages suitable for all budgets. Supporting EFMC12 provides the opportunity to tightly connect your company name and brand to the international community of scientific and industry leaders in fluid mechanics. Conference sponsorship is an effective means to consolidate existing technical and business relationships and to create new ones. The exhibition space, located in strategic areas of the conference, will provide a further opportunity of communicating brand messages and to present equipment, services and technology to a large number of qualified potential customers. Online and printed pre-conference advertising are promoting sponsor companies to the worldwide fluid mechanics community.

Two types of promotional packages are available: sponsors and exhibitors. They are described in detail in the attachment and may be further tailored upon request.

I am looking forward to welcoming you at EFMC12.

Yours sincerely,

A handwritten signature in blue ink, appearing to read 'Hendrik C. Kuhlmann'.

Prof. Dr. Hendrik C. Kuhlmann  
Chairman, EFMC12

Encl.
